PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division NPICD, and the Production Center IP1a IDA. The photographic analysis for this particular report was performed by the Production Center IP1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: A: railroad service, B: road service, C: landing strips, D: administrative and troop housing areas, E: storage areas, F: ammunition storage areas, G: POW storage areas, H: other buildings and facilities, J: equipment storage maintenance areas, K: athletic fields, L: small arms firing ranges, M: driver training areas, N: tank assault gun firing ranges, P: flat trajectory firing ranges, Q: artillery emplacements (batteries), R: infantry or combined arms field training areas or courses, S: special training facilities, T: unidentified facilities or tracking activity.

SUMMARY

A military installation is located 2.6 kilometers (km) west-northwest of Taytsy and 11.2 km north-northwest of Gatchina Army Barracks North (Figure 1).

The installation covers approximately 250 acres and contains the following buildings: 1 probable headquarters, 7 probable barracks, 4 probable administration, 6 possible administration/barracks, 12 storage, 15 miscellaneous support, and 1 unidentified building (Figures 2 and 3). A large, rectangular, earth-covered

structure resembling a bunker and located adjacent to the unidentified building was completed in [REDACTED]

The area is covered on [REDACTED] KEYHOLE missions of interpretable quality between [REDACTED]. Comparative analysis reveals active construction within the installation throughout this period. This construction includes 3 major buildings and the large bunker-like structure.

DESCRIPTION OF INSTALLATION

Railroad Service

A double-track railroad is 1.6 km east of the installation.

Road Service

A surfaced road serves the installation.

Aircraft Landing Strips

Four airfields are within 20 km of the installation.

Administrative and Troop Housing Areas

Area D1 contains 1 probable headquarters building, 7 probable barracks, 6 possible barracks/administration buildings, 5 miscellaneous support buildings, and 2 small U-shaped revetments.

Area D2 contains 3 probable administration buildings, 2 general storage buildings, 1 miscellaneous support building, and 1 water tower.

General Storage Areas

Area E1 contains 1 probable administration building, 5 storage buildings, and 6 miscellaneous support buildings.

Area E2 contains 5 storage and 3 miscellaneous support buildings.

Athletic Field

Area K contains an athletic field.

Unidentified Facilities or Tracking Activity

Area T is fenced and contains a large rectangular mound, resembling a bunker, adjacent to an unidentified building. Two possible semiburied tanks are east of the mound. The area has been under construction since [REDACTED]. Observation of the construction progress indicates that a trench, possibly passing beneath the building, was covered over in [REDACTED].
